Daily Revisit Sessions

Daily Revisit sessions occur for 30 minutes during each day (between 10:45-11:45 AM). Revisit sessions are used to provide students with additional support related to class performance. Teachers use this time to revisit key concepts taught in class, help students with homework assignments, projects, preparing for assessments, and the organization of materials. Students can also retake assessments to improve their grades during this time.

Students may drop in for these sessions or will receive a Schoology message for MANDATORY attendance from their teacher(s).

Math & Social Studies: 10:45-11:15
